

Walking from the holiday home

La maison en pierre bleue is located at the red arrow on the attached map. Follow the paved road in front of the house uphill to join the marked walk.

This walk, marked blue on the map, is 18.3 km in total and takes you along the most beautiful spots in the area via well-walkable paths. Of course, it is also possible to split the whole into shorter loops. The walk is not signposted and has a height difference of 520 m.

Between points 1 and 2 you can make a detour to Domaine Le Boulac for a snack and/or drink (<https://www.boulac.be/>).

Point 3: Chèvrerie d'Ozo; goat farm (<http://www.chevreriedozobe/>).

Point 4: Roche-à-Frêne; beautiful viewpoint at the top of the climbing massif.

Point 5: Parking at the cemetery; ideal for a short walk to enjoy the Roche-à-Frêne viewpoint (point 4).

Point 6: Roche-à-Frêne; at the bottom of the climbing massif.

In the holiday home you will also find a topographic map. This is more detailed and shows a number of other signposted routes as an alternative. You can order them online via the NGI webshop (<https://shop.ngibe/>).

Have fun walking!
